

# JUNIOR NEWSLETTER

August 20, 2010

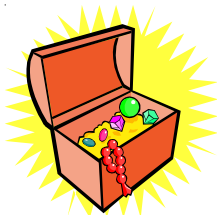

Greetings and Salutations one last time from the Junior shores of Moose Pond. Your sons are all home and I'm sure by now you have heard many, many camp stories. It has been an absolutely fantastic summer, which was capped out by one of the greatest final weeks I have ever experienced.

The honors canoe trip, led by **Uncles Carter, Connor and Josef**, had **Austin Hanley, Nate Roberts, Ryan Kirkpatrick, Simon Kearns, Slater Nalen, Ferdinand Merk, Garrett Kearns, Pete Fulweiler and Chet Conlin** spending three days on Lake Cupsuptic enjoying classic lake paddling, super campsites, and except for one rainy evening, beautiful weather.

**Uncles Lime, Zach** and CIT **Matt Smith** led the honors mountain trip and headed up the slopes of New England's highest and grandest peak, Mt. Washington. Joining them were **Walter Hubsch, Luis Hinestrosa Bennedetti, Sam Skinner, Josh Moran, Jack Murphy and Decker Wentz**. Camping at the base of Tuckerman's Ravine, they explored Boot Spur, summited on a crystal clear day and even spotted a mamma moose and two calves; right in their campsite!

More chipmunk, beaver and eagle pins were given out this summer than in recent memory. We are all very proud of Juniors' accomplishments. Congratulations to all who received pins in the last week and again to all throughout the summer.

The finale to tribal competitions was as exciting as any in the past. Stick showings were numerous and daring, and the Treasure Hunt was a triumph for all the campers. The Delawares completed a stellar comeback in just the last two weeks to win the banner.

Red/Gray competition was also exciting with events in almost every activity. Sportsmanship this week was spectacular and you should be very proud of your boys. In the end, after all points had been tallied, the banner for 2010 will be....RED! Congratulations to ALL team leaders for a great summer.

Well, summer is coming to a close and Junior Winona 2010 will live long in our hearts and minds.

So, until next year...
